SUMMARY

Experienced software developer with a robust background in web technologies and a demonstrated track record of successfully resolving complex software bugs. Dedicated to delivering high-quality solutions, I am now seeking a challenging position where I can leverage my technical expertise to contribute to the development of innovative software solutions.

EXPERIENCE

Software Engineer | Cylogic | Hyderabad | July 2022 - Present

- Developed comprehensive unit test cases for APIs using NestJs and Jest, ensuring high code quality and functionality across multiple projects.
- Enhanced user experience and data accuracy by adding a country selection option to mobile input and integrating mobile number validation against selected country's patterns.
- Streamlined product testing processes by implementing custom payment solutions using Stripe APIs and integrating testing-specific APIs into the UI.
- Developed and maintained API endpoints with essential features using NestJs and Typescript to meet UI requirements.
- Introduced a user data retention feature, aligning with industry best practices, enabling users to retrieve accounts within a designated period after deletion.
- Addressed and resolved various software issues, including currency formatting, email-related concerns, and authorization fixes, enhancing overall system stability and performance.

Web Developer Intern | FreshPrints | July 2017 - May 2022

- Understood project architecture and learned project technologies during internship, demonstrating adaptability and a willingness to learn.
- Collaborated with other interns to fix P4 and P5 bugs, occasionally working on P2 bugs, showcasing problem-solving skills and teamwork.
- Assisted in other aspects of the project as required during the internship, demonstrating flexibility and a proactive attitude.
- Participated in team meetings and discussions, contributing valuable insights and ideas for project enhancement, highlighting strong communication and teamwork skills.

PROJECT

React.js E-commerce Website with Firebase Integration

- Developed an e-commerce website using React.js and Firebase, featuring product display, shopping cart, and checkout capabilities.
- Integrated Firebase for real-time database management and user authentication, ensuring data security and seamless user experience.
- Implemented responsive design and CSS for a visually appealing and mobile-friendly interface.
- Collaborated with a team to deliver the project on time, meeting client requirements.

EDUCATION

Bachelor of Technology in Computer Science | CMR Institute of Technology, Hyderabad |
8.2 CGPA | June 2018 - June 2022

SKILLS

Angular
Nest.js
React Native
JavaScript / Typescript
Html/CSS
Tailwind CSS
Python
SQL
