🌐 <https://myself-i-me.github.io/>

Highly motivated and detail-oriented software developer with experience in working with various web technologies, and resolving various software bugs. Seeking a challenging position where I can leverage my technical expertise and contribute to the development of innovative software solutions.

Experience

Software Engineer at Cylogic

July 2022 - present

- Developed comprehensive unit test cases for APIs across multiple projects using NestJs and Jest frameworks, ensuring high code quality and functionality.
- Successfully added a country selection option to the mobile input and integrated mobile number validation against the selected country's "valid mobile number pattern," enhancing user experience and data accuracy.
- Implemented custom payment solutions by leveraging Stripe APIs and integrated testing-specific APIs into the UI to streamline product testing processes.
- Developed and maintained API endpoints with essential features to meet UI requirements using NestJs and Typescript.
- Introduced a user data retention feature, allowing users to retrieve their accounts within a designated period after deletion, aligning with industry best practices.
- Addressed and resolved various software issues, including currency formatting, email-related concerns, authorization fixes (in DTOs), scheduler-related fixes, and other minor bugs.

Web Developer Intern at FreshPrints

Jul 2018 - May 2022

- As an intern, my work was majorly related to understand the project architecture and learn the technologies used in the project.
- With all the interns, I was also assigned to fix p4 and p5 bugs. a few times we were assigned with p2 bugs.

Education

CMR Institute of Technology, Hyderabad

JUNE 2018 - JUNE 2022

- Bachelor of Technology
- CSE (8.2 CGPA)

Technologies

- Javascript , Typescript
- Angular , NestJS
- SQL
- Python
- HTML , CSS
